GUIDE

APPLE MUSIC FOR ARTISTS

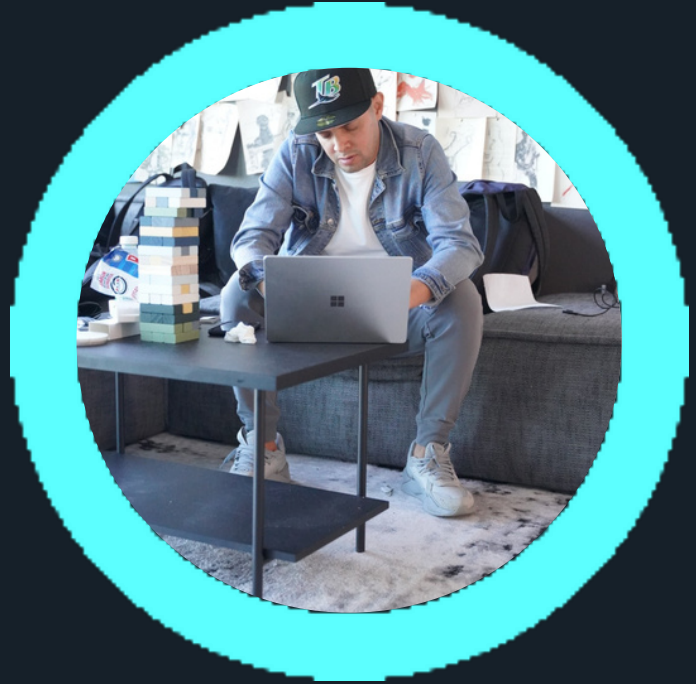

Ambiente Marketing Group, LLC

WELCOME MESSAGE

It's crucial to not concentrate all of your attention on a single streaming provider when promoting your music. Spotify, Amazon Music, YouTube Music, and Apple Music are just a few of the many outlets where your fans may listen to your music.

That reality should be acknowledged in any promotional material you provide to your entire audience, and Apple Music should be mentioned among other well-known services. That's because as of 2020, Apple Music is second to Spotify in overall subscribers. The numbers break down like this:

- Spotify: 144+ million paid subscribers
- Apple Music: 72+ million paid subscribers

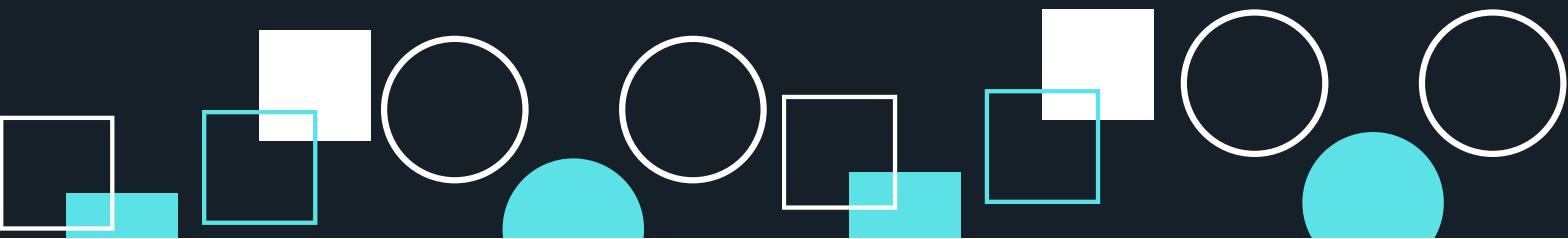

Marco "Dreamz" Matallana

CEO Ambiente Marketing Group

In 2021, one of the major cash streams for independent artists was Apple Music.

How can you be confident that your presence on Apple Music is being utilized to its full potential? Use Apple Music for Artists now.
