# GUIDE

SPOTIFY FOR ARTISTS

Ambiente Marketing Group, LLC

# WELCOME MESSAGE

Spotify is without a doubt the giant of the music streaming world and a very good friend to artists (signed and unsigned) worldwide. One of the things we love most about Spotify is their artists-only tool Spotify For Artists.

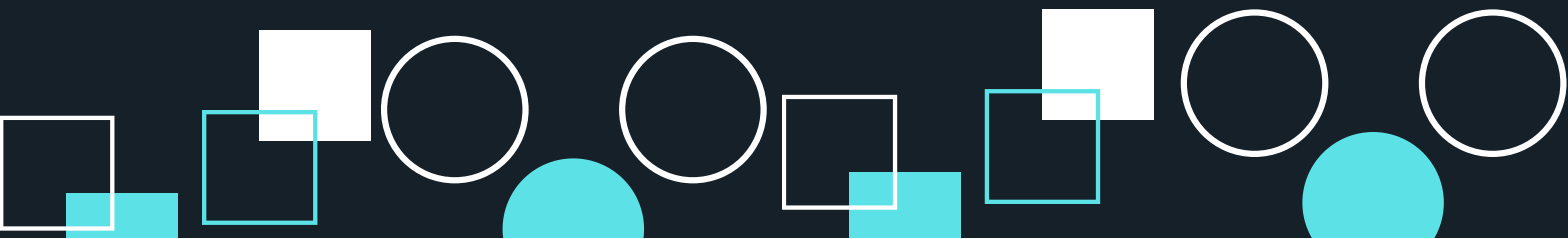

Spotify is just one of the many major online retailers we distribute to, but it also one we collect important trend data from that is displayed in every artist account under 'Stats & Activity', to help artists gauge how their releases are performing from day one. All you need to do is a release your tracks on Spinnup and the data will start showing in your account 1 day after release.

Marco "Dreamz" Matallana

CEO Ambiente Marketing Group

As a music service but also a tech company Spotify is constantly evolving so we have put together our one-stop-shop for understanding Spotify For Artists, which we will continue to update each time there is a new feature added to the service.

## HOW TO MAKE A SPOTIFY FOR ARTISTS ACCOUNT

1. Sign up for AMG Distro to create your Spotify for Artists Account
2. Upload your music and cover art.
3. Submit your songs to Spotify. Allow a few days for review.
4. Verify and claim your artist name for Spotify via AMG Distro
5. Create your Spotify for Artists profile.
6. Upload photos, edit your bio, pitch singles for playlists, and get deeper audience data.

Spotify for Artists allows you to manage your profile, get deeper music and audience data, pitch your new music to playlists, and highlight key songs, concerts and playlists with Artist Pick. Start by getting your new release to Spotify through TuneCore, then claim and verify your artist name to create your Spotify for Artists profile.

AMG Distro can make sure you get your profile quickly and verified. For more information and details please contact us at [management@ambientemktg](mailto:management@ambientemktg).
